

**HINKSON CREEK COLLABORATIVE ADAPTIVE MANAGEMENT
RIPARIAN SUBCOMMITTEE Meeting Minutes
September 27, 2016**

10:00 am

City, Water & Light Admin Conference Room 4A

Attending: Paul Land, Paul Mehrle, Tom Wellman, Mike Powell, Erin Keys, Lynn Hooper, Ted Haessler, Jennifer Sullivan, Bill Florea

1. Agenda for 9/27/16 meeting approved by acclamation. Minutes for 8/23/16 meeting approved by acclamation.
2. Discussion regarding the El Chaparral Site: A level spreader could be installed to disperse some of the runoff from El Chaparral. Tom thinks this could be done for a relatively low price. Some vegetative restoration could be included in the project. It was agreed the City Staff will work up a cost estimate including maintenance and discuss the proposal with Parks Department staff.
3. Discussion of photos of thin riparian areas from the Physical Habitat Assessment: Discussion occurred and it was agreed that it would be beneficial to look for appropriate sites. MU has two sites that have been considered and Jennifer can bring or discuss a study about bank stabilization.

A future meeting date was not set, we agreed to delay the next meeting to give staff time to develop the El Chaparral estimate.
