Bill contacted Shawn regarding the Stakeholder's responsibilities in the CAM process.

- Project Updates

Flow and Sediment Study

Jon White will try to get an update on the status of this projects.

Forum Level Spreader

Data is being downloaded from the sensors every Monday at 3:30 PM. The climate station will be moved soon after delays from recent weather and utility locates.

- Project Proposals

Riparian Area acquisition

City hopes to have money in the future for land acquisition. MU could expand riparian areas within its own borders. More research will be done by all into the use of easements and other programs that could be useful to acquire riparian zones without having to buy the land outright, as well as, research into what other entities have done in similar situations (e.g. Springfield, MO and Lidutz Run, PA). Lynne said that she would invite Mike Powell from Greenbelt Land Trust to our next meeting. Erin said she would set up a webinar discussing crowdsourcing of water quality projects.

- Regulatory Update

2018 303(d) listing methodology is out for public review/comment.

Water Quality Standards for lakes is a critical issue that MDNR is working on.
