

Table of Contents

Executive Summary	1
Introduction	6
I.a Regulatory Framework.....	6
I.b The Stakeholders Vision.....	8
I.c Future Projections for the Watershed.....	8
Chapter 1. City History and Watershed Development	11
1.a Early Development.....	11
1.b Recent Development.....	12
1.c Impervious Surface.....	13
Chapter 2. Watershed Characteristics	14
2.a Climate.....	14
2.b Geology and Ecological Drainage Units.....	14
2.c Soils and Topography.....	15
2.d Agriculture.....	15
2.e Vegetation.....	16
2.f Stream Characteristics.....	17
2.g Stream Classifications.....	17
2.h Fish Community.....	18
2.i Lakes.....	20
2.j Land Cover.....	21
Chapter 3. Water Quality and Projected Load Reduction	23
3.a Stream Contaminants.....	24
3.b Sediment Contaminants.....	24
3.c Bacteria Samples - Escherichia coli.....	25
3.d Total Maximum Daily Load (TMDL).....	25
3.e Load Reductions.....	26
Chapter 4. Information and Education Activities	31
4.a Public Input Surveys.....	31
4.b City-County-University of Missouri MS4 Permit Activities.....	32
4.c Educational Activities Through a 4-Year Hinkson Creek Subgrant Project.....	34
4.d Overview of the Upper Hinkson Creek SALT Program.....	35
Chapter 5. Recommendations	37
5.a Summary of Hinkson Creek Impairment.....	37
5.b Vision Summary.....	38
5.c Recommendations: A Three-Dimensional Approach.....	38
5.d Restoration.....	39
5.e Feasibility Analysis for Retrofitting Stormwater Treatment Structures or Best Management Practices.....	46
5.f Protection.....	46
5.g Information Needs and Public Education.....	49
5.h Adaptive Management.....	50
5.i Funding.....	50

Appendix A Schedule of Milestones	
Appendix B Feasibility Study	
Appendix C Hinkson Creek TMDL	

List of Figures

Figure 1.1 Downtown Columbia, MO August 5, 1939.....	11
Figure 1.2 Downtown Columbia, MO January 26, 2010.....	11
Figure 2.1 Soil Map for Hinkson Creek Watershed.....	14
Figure 2.2 Major Lakes within the Hinkson Creek Watershed.....	20
Figure 2.3 Land Cover Map from Columbia, MO NRI.....	21
Figure 2.4 Land Cover Map from Boone County Resource Management.....	22
Figure 3.1 Macroinvertebrate Sample Locations.....	24
Figure 5.1 Hotspot Locations within the Hinkson Creek Watershed.....	41
Figure 5.2 Pond Retrofit - Before	43
Figure 5.3 Pond Retrofit - After	43
Figure 5.4 Flow Splitter	44
Figure 5.5 Dry Pond Treatment Area.....	44
Figure 5.6 Reforestation Retrofit	45
Figure 5.7 Conveyance Retrofit.....	45
Figure 5.8 Stream Extravaganza.....	50

List of Tables

I.1 Boone County and City of Columbia Census Figures and Census Forecast.....	9
I.2 Projected 2030 Employment Growth	9
I.3 Projected Housing Growth	10
2.1 Fish Kills Reported within the Hinkson Creek Watershed 1996 - 2006.....	19
2.2 Large Lakes within the Hinkson Creek Watershed.....	20
2.3 Land Cover Data from Columbia, MO NRI.....	21
2.4 Land Cover Data from Boone County Resource Management.....	22
3.1 Stream Classification Index Scores within the Hinkson Creek Watershed.....	23
3.2 Median Stormwater Runoff Pollution Concentrations.....	27
3.3 Load Reductions of Suspended Sediment by Recommended BMPs.....	28
3.4 Load Reductions of Bacteria by Recommended BMPs.....	29
3.5 Load Reductions of Zinc by Recommended BMPs.....	29
3.6 Runoff Reductions by BMPs	329
5.1 Six Most Common Storage Retrofit Locations in Subwatersheds.....	42
5.2 City of Columbia and Boone County Stream Buffer Widths.....	47
5.3 Projected Schedule Implementation	52
